

Devanshu Desai

Ranked #1 Python Programmer on HackerRank
<https://github.com/devanshuDesai> | (408) 230 - 7887 | dbdesai@ucsd.edu

EDUCATION

UNIVERSITY OF CALIFORNIA BACHELOR OF SCIENCE IN DATA SCIENCE

March 2021 | San Diego, CA
Magna Cum Laude
Cum. GPA: 3.87 / 4.0
Major GPA: 3.96 / 4.0

COURSEWORK

GRADUATE

Recommender Systems
Advanced Deep Learning
Computational Evolutionary Biology
Probabilistic Graphical Models

UNDERGRADUATE

Computer Vision
Scalable Systems For Data Analytics
IoT Systems For Data Analytics
(Quarter-long project)
Theoretical Foundations of Data Science
(Teaching Assistant x7)
Data Structures And Algorithms
(Teaching Assistant x1)

SKILLS

PROGRAMMING

Expert
Java • Shell • Python • Javascript • \LaTeX
Proficient
C++ • React •
Intermediate
iOS • Android • MySQL

EXPERIENCE

NANOME INC. DATA SCIENTIST

Jan 2020 - Present | San Diego, CA

- *Developed* a novel deep-learning based approach to address the company's voice recognition needs.
- *Pioneered* an alpha build for the company platform's 1st attempt at a voice command assistant for the platform.
- *Reduced* server latency for voice responses by 75% compared to on-device recognition for Oculus devices.
- *Improved* command hit rate by 12% using an implementation of **LSTM-based DeepSpeech** and **BERT embeddings**.

METRIM DATA DATA SCIENTIST / CO-FOUNDER

Nov 2017 - Oct 2019 | San Diego, CA

- *Devised* a novel method using **Recurrent Neural Networks** and **Variational Autoencoders** for target prediction.
- *Optimized* our inference models to run on **Google Cloud TPUs** instead of multiple GPUs
- *Observed* a 4x speed in inference times and a 3x speed up in training times as a result of the aforementioned optimizations.
- Developed an end-to-end data ingestion and **ETL pipeline** to run on 10 terabytes of data from the Common Crawl dataset.
- Extracted features for lead prediction were stored in a MySQL database to be queried with a **REST API** by our front-end.

UC SAN DIEGO INSTRUCTIONAL ASSISTANT

Jan 2018 - Present | San Diego, CA

- *Automated* style checks for DSC 20 which directly resulted in over 500+ tutor hours saved in the last 2 years as well as saving the Data Science department over **USD \$10,000** in tutor salaries.
- *Implemented* a linear regression based runtime check in DSC 40B which has so far resulted in 20+ hours of manual grading saved for the tutors along with direct cost savings for the department.
- *Created* several homework and exam solutions to administer the coursework effectively and uphold the value of a UCSD degree.

RESEARCH

MCAULEY LAB UNDERGRADUATE RESEARCH SCHOLAR

Dec 2020 - Present | San Diego, CA

- *Collaborated* with post-doctoral researchers in **Hao Su**.
- *Customized* **Facebook AI Research's VoteNet** model to work on a custom dataset.

SU LAB | RESEARCH ASSISTANT

Jan 2020 - April 2020 | San Diego, CA

- *Collaborated* with post-doctoral researchers in **Hao Su**.
- *Customized* **Facebook AI Research's VoteNet** model to work on a custom dataset.
- *Augmented* the **PartNet** dataset to perform better with our model which resulted in a 1.5% improvement in classification accuracy.
